Big disparities in municipal power charges to businesses

By: **Terence Creamer**

4th June 2010

Municipal power tariffs for businesses consuming about 1,5 MVA are 26% less expensive in Richards Bay, on South Africa's east coast, than the country's next cheapest metropolitan area, Tshwane, and 45% lower than the tariffs levied over a 12-month period in Johannesburg, a new report shows.
